

Day	Date	Time	Event
THUE	16/ Apr/	9:30 AM	Registration
		10:00 AM	Pre-Conference Workshop "Mouse Tracking"
		10:00	Introduction
		10:15	History & theoretical background
		11:15 AM	Coffee break - 15 min
		11:30 AM	Pre-Conference Workshop - part 2
		11:30	Technique & method
		12:00	Software & applications
		1:00 PM	Lunch break - 1 h 30 min
		2:30 PM	Pre-Conference Workshop - part 3
		2:30	Experiment & hands-on exercise
		3:30	Questions & discussion
		4:30 PM	Registration + Coffee break - 30 min
		5:00 PM	Welcome + Keynote: Professor Ralph Hertwig
		6:00 PM	Welcome Buffet
FRI	17/ Apr/	9:00 AM	Session 1 - Probabilities and risk
		9:00	Personal experience of a small-probability event with severe consequences influences willingness ... (10+10)
			Anna Polec
		9:20	Process tracing across evolutionary domains: Exploring cues for risky choice (10+10)
			Jana Jarecki
		9:40	Decisions based on probabilities estimated from experience: the role of emotions and individual ... (10+10)
			Kamil Fulawka
		10:00 AM	Short break - 5 min
		10:05 AM	Session 2 - Processing and motivation
		10:05	How to make people more interested in information about probability? The Active Information ... (10+10)
			Agata Sobkow
		10:25	"Gamification" of experimental investigations of decision processes (15+15)
			Jolene Tan
		10:55 AM	Coffee break - 15 min
		11:10 AM	Session 3 - Mousetracing
		11:10	Strategies in Mindreading - a Process Approach (15+15)
			Thomas Scherndl
		11:40	Analysis of consumer behaviour regarding the purchase of organic food products (10+10)
			Sonja Perkovic
		12:00	Investigation of the food choice process using hand movements in binge eating disorder (10+10)
			Zoe van Dyk
		12:20 PM	Lunch break - 1h 40 min
		2:00 PM	Session 4 - Mousetracing
		2:00	Dual processes in decision making: Minute-long mouse-tracking reveals conflicting processes (15+15)
			Eoin Travers
		2:30	Detecting different trajectory types in motor-tracing data (10+10)
			Jonas Haslbeck
		2:50	Real world implementation of Newcomb's paradox using mouse-tracking techniques (10+10)
			Maryam Tabatabaieian
		3:10 PM	Coffee break - 20 min
		3:30 PM	Session 5 - Mousetracing
		3:30	Thinking while doing: Investigating decision making dynamics (10+10)
			Avril Hand
		3:50	From decision-outcomes to decision-making: Harvesting the dynamics of delay discounting ... (15+15)
			Stefan Scherbaum
		4:20	Information search in the sampling paradigm: A mouse tracing study (10+10)
			Dirk Wulff
		4:40 PM	Keynote: Professor Jon Freeman
		7:00 PM	Dinner
SAT	18/ Apr/	9:00 AM	Session 6 - Theoretical contribution related to process tracing
		9:00	The process behind magnitude priming in the non-numerical anchoring heuristic (10+10)
			Paweł Tomczak
		9:20	Impulsive people have a compulsion for immediate gratification - certain or uncertain (10+10)
			Piotr Zielonka
		9:40	Intransitivity or Transitivity of Preferences? Process and Structural Accounts (10+10)
			Rob Ranyard
			Short break - 5 min
		10:05 AM	Session 7 - Eye-tracking
		10:05	Decision making styles and new product evaluation (15+15)
			Thorsten Teichert
		10:35	The role of numeracy in processing simple lotteries: An eye-tracking study. (10+10)
			Jakub Traczyk
		10:55	Revisiting the Allingham & Sandmo-Model of Tax Evasion as a Decision under Risk: An Eye- ... (10+10)
			Christoph Kogler
		11:15 AM	Coffee break - 15 min
		11:30 AM	Session 8 - Eye-tracking
		11:30	Framing persuasive appeals over time: Can eye-tracking uncover the intratemporal ... (10+10)
			Sean Nicolas Brueggemann
		11:50	Individual differences in reward and loss processing - an fMRI and Eye-tracking Study (10+10)
			Alexander Niklas Häusler
		12:10	Temporal dynamics of cheating: Arousal and attention analysis (10+10)
			Susann Fiedler
		12:30 PM	Lunch break - 1h 15 min
		1:45 PM	Session 9 - Eye-tracking
		1:45	Eye Movements Reveal Memory Processes During Similarity- and Rule-Based Decision Making (15+15)
			Bettina von Helversen
		2:15	Watching Diagnoses Develop: Eye Movements Reveal Symptom Processing during Diagnostic ... (10+10)
			Agnes Scholz
		2:35	Predicting (risky) choices from (open) samples: How much do process models gain from ... (10+10)
			Felix Henninger
		2:55 PM	Coffee break - 15 min
		3:15 PM	Session 10 - Eye-tracking
		3:15	What is reported in eye-tracking research? - Developing transparency standards (10+10)
			Frank Renkewitz
		3:35	Areas of Interest as a Signal Detection Problem in Behavioral Eye-Tracking Research (15+15)
			Jacob L. Orquin
		4:05	A reanalysis of eye-tracking data on Additivity neglect by varying AOI sizes. (10+10)
			Anine Riege
		4:25 PM	Short break - 5 min
		4:30 PM	Integration of Concepts Session & Future of EGPROC
			Discussion: Process Modelling & Tracing
			Feedback, Future of EGPROC
		7:00 PM	Boat Tour + Dinner
